

EXPO ITALIA REAL ESTATE 2012
BEAR PROJECT MANAGEMENT
sponsors the
Royal Institute of Chartered Surveyors

Great participation by RICS members and "friends" of RICS at the buffet lunch, offered by BEAR Project Management, held on June 6th during the Expo Italia Real Estate Fair in Milan, at the RICS Italia stand and dedicated to

"INTERNATIONAL STANDARDS AND PROFESSIONALISM: TOOLS FOR SUCCESS"

After an initial welcome statement by Marzia Morena – MRICS, President of RICS Italia, Steven Scamihorn – MRICS, managing director and owner of BEAR Project Management explained the need to be part of a group recognized for its high standards of professionalism, ethics and transparency, of particular importance in a moment of market uncertainties where challenges should be welcomed and turned into opportunities.

International standards and professionalism are elements which contribute to greater credibility that support organizations in times of economic crisis.

This particular occasion allowed numerous professionals to get together in a friendly, relaxed atmosphere, to exchange views, meet new and old business contacts and strengthen ties or perhaps even lay the foundations for future business relationships.

BEAR PROJECT MANAGEMENT extends sincere thanks to RICS and all guests for such a successful outcome. We are already looking forward to seeing everyone again at future events.
